 DR. NIKOLAUS LINDE

INNOVATION MAKES DIFFERENCE
PROFESSIONAL COSMETIC BRAND

A black and white photograph of a dense forest of evergreen trees, likely spruce or fir, shrouded in a thick mist or fog. The trees are tall and conical, filling the frame from the foreground to the background. The mist is particularly dense in the upper half of the image, creating a soft, ethereal atmosphere. The lighting is diffused, with no strong shadows or highlights, emphasizing the texture of the needles and the verticality of the trunks.

DR. NL is a cosmetic-beauty brand known for its superior quality, combining the cutting-edge Korean cosmetics with Dr. Nikolaus Linde's beauty philosophy based on rigor of Switzerland to ensure its exceptional effectiveness and skin health.

ABOUT DR. NIKOLAUS LINDE

Dr. Linde is an international beauty expert and an acclaimed keynote speaker at conferences all over the world. He is specialized in the treatment of fat pads, wrinkles and transformations of the skin with the latest, most innovative technologies.

Dr. Linde trains doctors in his international academies and enjoys passing on his knowledge as well as his experience in the field of aesthetics.

Thanks to his international network & regular interchange with doctors and hard working, Dr. Linde knows latest information to provide most advanced and innovated treatments to his patients.

In addition, Dr. Linde has made excellent achievements as a specialist in the adipose tissue of the body, veins and lymph nodes, in connective tissue, and develops the field of beauty procedures by introducing new technologies. Currently, Dr. Linde's unique knowledge and experience is being passed on to other doctors around the world.

And this time, He launched a professional derma cosmetic brand called DR. NL by adding Korean cosmetic manufacturing technology. DR. NL brand has conducted in-depth research, found ways to fundamentally improve skin condition and created a science-led product line that presents marvelous efficacy by providing the highest grade of nutritious ingredients to your skin.

"INNOVATION AND EXPERIENCE MAKE THE DIFFERENCE." – Dr. Linde

DR. NL Vitamin C 14% Serum 20ml

DR. NL Vitamin C 14% Serum has best optimized pure vitamin C, and other antioxidant components work together to improve skin's brightness, firmness, stubborn discoloration, dull and uneven tone.

What Vitamin C Effect on Skin

- Strong antioxidant to prevent skin aging reduces pigmentation, freckles and blemishes.
- Helps collagenesis and maintain collagen to form elastic skin.

Best Vitamin C Combination

- PH4.0 less (PH3.4~3.6)
- Vitamin C content 14~20%
- Ascorbic Acid Ingredient (Pure Vitamin C)
- Vitamin C + Supplementary Substances
-> Presence of studies showing that skin absorption is best when the optimal content of vitamin C is 14~20% and the PH is less than 4.0

Powerful and Quick Brightening Effect

- Skin boosting while delivering antioxidant defense against environmental stressors and free radicals.
- Premium pure 14% vitamin C from DSM company of The United Kingdom. (soluble pure vitamin C)
- Glutathion: Main ingredient of white jade injection, anti-oxidizing brightening effect.
- Coenzyme Q10 (Ubiquinone): Effect of inhibiting melanin production.

DR. NL Total Solution Technology

Anti-oxidant cocktail

Vitamin C ingredients are surrounded by antioxidant cocktail that has been specially selected after many years of research and development. It can protect pure vitamin C from oxidative attacks due to dissolved oxygen in water and oxygen exposure. The components help pure vitamin C to remain stabilized without oxidation.

Bio-Polymer

Bio-Polymer and mutual interaction of vitamin C protect vitamin C, Bio-Polymer with excellent binding power combines Bio-Polymer and Pure Vitamin C to prevent Vitamin C from decomposing. Bio-Polymer helps Vitamin C to stabilize and stay alive without discoloration.

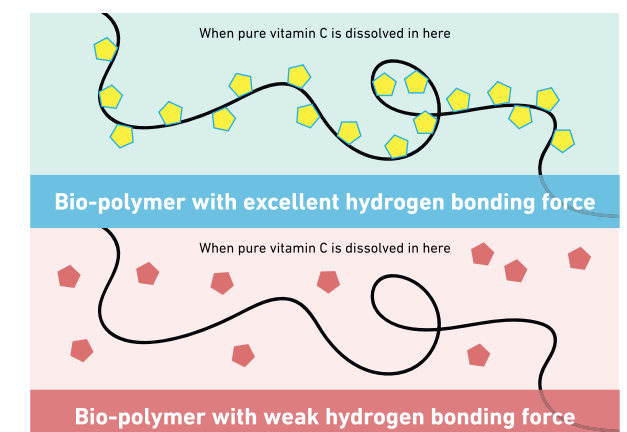

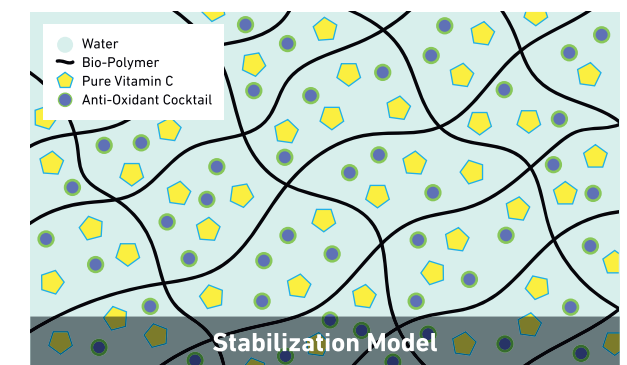

Pio-Polymer without binding power
When pure vitamin C And Bio-Polymer with weak binding force meet, they don't combine with each other. In consequence, Pure vitamin C is rapidly oxidized. Pure vitamin C loses its function as product when the color changes to dark brown and the scent changes.

Anti-aging & Skin booster

- For the smooth & elastic skin texture.
- Plant stem cell ingredients help skin regeneration and elasticity.
- Supplies skin nutrition with complex amino acids.

Other Effective Ingredients

- **Dr. Linde Glow Complex:**
Citrofortunella Microcarpa Fruit Extract, Hibiscus Sabdariffa Flower Extract, Myrciaria Dubia Fruit Extract, Rosa Canina Fruit Extract, Rubus Coreanus Fruit Extract, Lycium Chinense Fruit Extract and 4 others.
- **Dr. Linde Soothing Complex:**
Hordeum Vulgare Sprout Extract, Inonotus Obliquus (Mushroom) Extract, Centella Asiatica Extract Dendropanax Morbiferus Extract and 5 others.
- Contains the Nobel Prize-winning "Fullerin".

DR. NL Firming Serum 20ml

Panthenol, hyaluronic acid and collagen are combined with high purity and content of panthenol, hyaluronic acid and collagen are combined to maximize moisturizing, soothing effects and improving skin elasticity. It provides soft texture and deep absorption to the skin.

A combination of main ingredients optimized for hydration, soothing and elasticity.

Highly concentrated Hyaluronic acid ¹

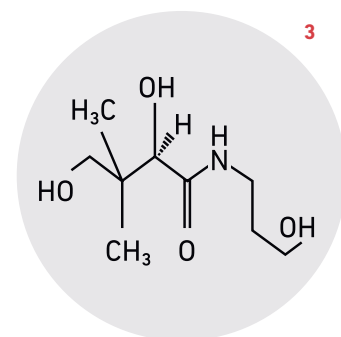

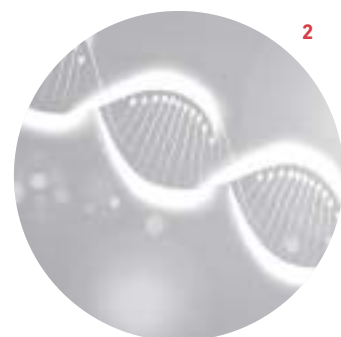

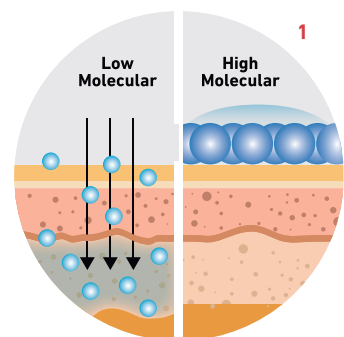

- High moisture absorption on dry skin through low molecular and high molecular hyaluronic acid combination.
- It fills the dry skin first and helps to make your skin elastic and healthy.
- Moisturize dry skin by attracting moisture and storing moisture for elastic skin care.

Soluble Collagen ²

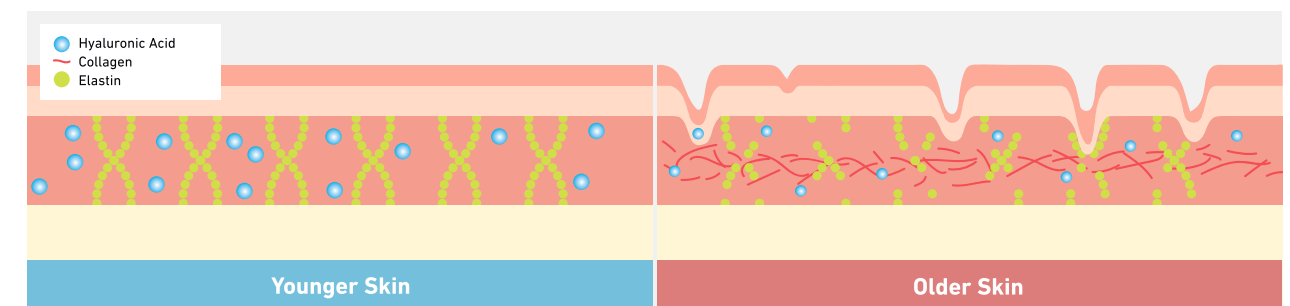

- Contains low molecular soluble collagen extract that can be absorbed quickly.

Panthenol 11% ³

- D-Panthenol is converted into vitamin B5 and penetrates deep into the skin to form collagen and hydrates the skin to create a moisture barrier to help making the skin glossy and elastic.
- Panthenol does not irritate the skin, such as itching, stinging, or reddening, and its typical functions are moisturizing, protecting the skin, relieving inflammation, and (anti-inflammatory) which are excellent for moisturizing the skin.
- directly supplies moisture to soothe dead skin, itching, and redness on dry skin.

Contains collagen and hyaluronic acid which are essential components of skin, instantly nourish and hydrate for a supple complexion.

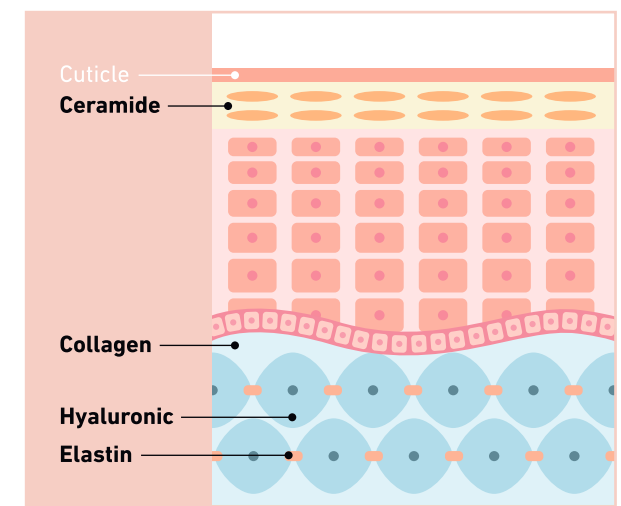

Contains Madecassoside which helps on skin irritated by both internal and external stressors, leaving you with a long-lasting radiance.

DR. NL Ceramide 4% Cream 50ml

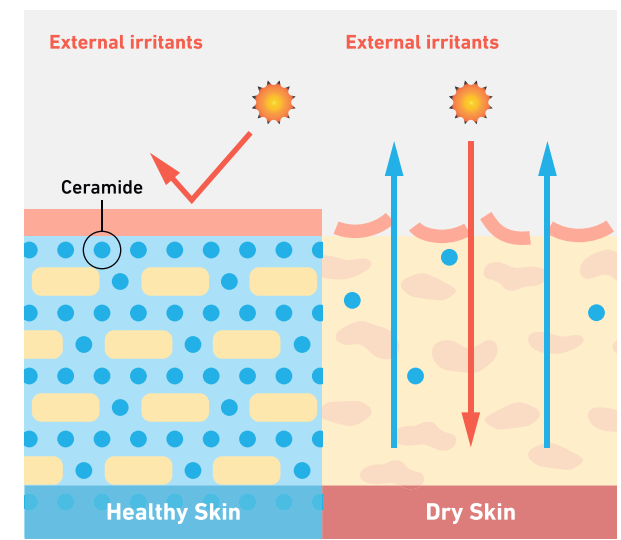

Ceramide 4% Cream is formulated based on the research of skin composition and principles to be the most effective for skin health. Containing high content of ceramide(4%) along with blend of soothing ingredients help in moisturizing and protecting skin lipids from harmful environmental factors.

Structure of skin barrier

- The stratum corneum is the outer layer of skin and consists of lipid membranes such as ceramide, fatty acids, and cholesterol.
- The lipid membrane, which acts as a skin barrier, is 40% filled with ceramide and it is the most important part.

Ceramide : Ceramide, which acts as a moisture barrier, protects the skin from external harmful factors or bacterial invasion and it prevents moisture loss from the skin.
Hyaluronic acid : It can store more than 1,000 times of moisture of its own weight, which holds moisture in the deep layer of the skin.
Collagen : The skin component that is about 80% of the skin's dermis weight and serve as a framework for maintaining skin shape and strengthening skin tissue.
Elastin : Typical protein components of the dermis layer of skin, present with collagen in skin tissues, and are responsible for the flexibility, elasticity, and resilience of skin tissues.

Role of skin barrier

- Protection against harmful external environments (fine dust, chemicals, fungi, etc.)
- Maintain sufficient moisture in the skin.
- Maintain a smooth skin appearance.

What happens if your skin lacks ceramide

- Ceramide regenerates naturally until the late 20s, but begins to decline rapidly as the 30s pass. and the skin barrier becomes weak.
- The stratum corneum collapses and is easily exposed to allergen substances such as ultraviolet rays and chemical properties, which harm skin protection.
- Skin becomes weak, resulting in roughness, swelling, and itching could occur.
- Lose Moisture in the skin through the collapsed stratum corneum.

Special features of Ceramide 4% Cream

- **Contains high content Ceramide (4%)**
 - Focus on strengthen the skin barrier to help quick skin recovery.
 - Use high purity Ceramide material.
 - Deep & strong moisturizing effect.
- **Contains Growth Factor ingredients**
 - Helps promote fibroblasts and helps strengthen skin barrier.
- **Contains Madecassoside**
 - Soothing irritated, redness and sensitive skin.
 - Activating collagen synthesis and improving skin elasticity.
- **Fast skin texture improvement**
- **Comfortable skin care with carefully selected Dr.Linde Soothing Complex extract from nature**
- **Calming sensitive and dead skin due to high moisturizing effects**

DR. NL EGF BIO-CELL MASK STERILE COSMETIC

An advanced free preservative & sterilized bio sheet mask that encourages skin's recovery function and elasticity.

Pore Care

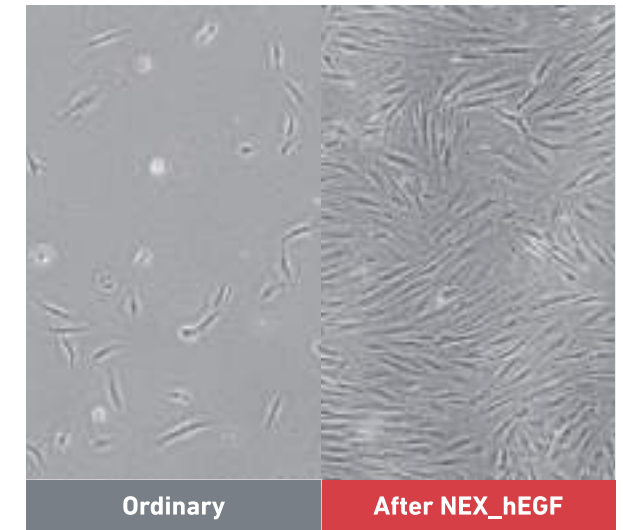

Dermatology Solution By NEX_hEGF

NEX_hEGF Feature

The *HDFa cell proliferation is accelerated by NEX_hEGF which is exclusively developed from our lab. NEX_hEGF is more powerful and activated in skin cell than other EGF.

**Human Dermal Fibroblasts, adult*

- Stimulates the proliferation of a wide range of epidermal and epidermal cells.
- Reduces and prevent wrinkles by generating new skin cells.
- Stimulates the synthesis of collagen.
- Improves the appearance of freckle.
- Reduces pigmentation and enhances skin elasticity.
- Helps skin surface smooths and dewy.

What is Bio-cellulose Sheet?

Biocellulose sheet is derived from fermented natural coconut. It has a similar structure to skin protein and skin-friendly, and remarkably fit on skin. Also, the sheet itself soothes a dry and irritated skin with moisturizing and cooling effects. It is superior to removes skin waste caused by fine dust etc. as well as helps control sebum and improves skin tone.

1st Generation
Non-woven Sheet

2nd Generation
Hydrogel Sheet

3rd Generation
"Biocellulose Sheet"

Sterile Mask Manufacturing Process

In recent years, the number of case for sensitive skin seems to increase due to environmental factors such as fine dust. Consequently, consumers have become more savvy about the ingredients of cosmetics to prevent their skin from becoming sensitive. It is a competitive product with mild ingredients that can help to get better and brighter complexion. As a preservative-free and sterile mask, it is a non-bacterial that can be stored for a longer period of time without any deformation or going stale.

DR. NL 2-Plex Sun Protection 50ml SPF50+ / PA++++

DR. NL 2-Plex Sun Protection is a triple multi function of UV rays protection, skin brightening and anti-wrinkle, and is a hybrid sunscreen by combining only the advantages of physical and chemical sunscreens that provide skin moisturizing and fresh feeling without a white cast or feeling sticky.

Why you should wear sunscreen daily

- Skin exposed to ultraviolet rays undergoes cell degeneration, resulting in blemishes, sagging skin, wrinkles, freckles, and pore expansion.
- Blocking the sun rays with sunscreen is a fundamental prevention from skin aging. Therefore, you should apply sunscreen all year round for anti-aging effect.

Advantages of Hybrid sunscreen

Physical Sunscreen

The tiny particles on the skin's surface physically protect skin from UV rays.

- ▲ **Advantages**
 - Less skin irritation
 - Instant skin protection from UV rays
- ▼ **Disadvantages**
 - White cast
 - Too thick texture
 - No absorbing well

Chemical Sunscreen

It creates a chemical reaction by converting UV light to heat and dissipates from the skin.

- ▲ **Advantages**
 - Soft texture
 - Quick absorbing
 - No white cast
- ▼ **Disadvantages**
 - More likely to irritate the skin
 - Soring eyes
 - Should apply 20-30mins before sun exposure

"Hybrid Sunscreen"

Combining only advantages of physical sunscreen and chemical sunscreen to protect skin from UV rays.

- ▲ **Advantages**
 - No irritation to the skin
 - No white cast
 - Soft texture without feeling sticky
 - Instant skin protection from UV rays

Main Ingredients

Madecasside (Cica)

- Helps collagen synthesis in the skin to enhance skin elasticity.
- Increases antioxidant concentration in the wound.
- Restores inflamed tissue.
- **Triterpenoid**: a wound recovery boosting ingredient in Madecasside.
- **Saponin**: helps to reconstruct dermal cells and not to leave a big scar by regulating collagen synthesis.

Pearl extract

- Contains more than 20 substances, including amino acids and natural minerals, which are effective in whitening, antioxidant, and skin regeneration.
- Excellent effect for skin elasticity by containing pearl collagen.
- **Conchiolin**: a protein component that maintains the skin moisturized.

Cynanchum atratum

- **Recovering & Strengthening skin barrier**
Helps to produce keratinocytes and to strengthen the skin barrier.
- **Preventing infection & Relieving skin irritation**
As the skin is stressed out, various cytokines are produced in keratinocytes, causing inflammatory reactions, and in the end, it causes skin disease and aging. But Cynanchum atratum greatly helps to inhibit cytokine production.
- **Inhibiting inflammation**
Helps to control and to reduce inflammatory factors.

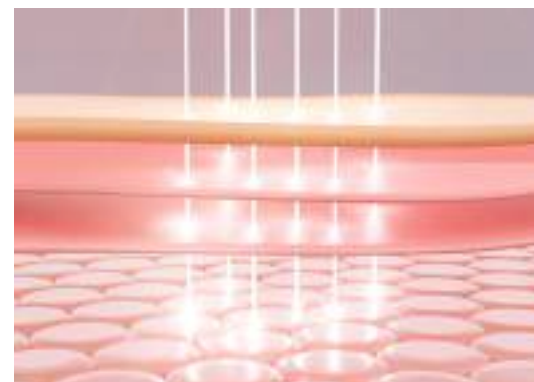

DR. NL Eye & Neck Cream 35ml

DR. NL Eye & Neck Cream is a melting lifting-thread cream. The chitosan melting-thread and the plant stem cells (Callus) can help to anti-age, to antioxidantize, and to skin-lift.

Melting Lifting-thread Cream : Chitosan

- **99.9% pure chitosan thread**
Unlike a synthetic PDO thread, a nature originated melting-thread cream can be absorbed into the skin immediately.
- **Long-lasting skin-lifting effect**
This luxurious cream is absorbed deeply into the skin and gives natural lifting effect.
- **Strengthening the skin barrier**
The chitosan helps reinforce the skin barrier and antioxidant effect, which can prevent the skin aging.

Plant stem cell : Callus

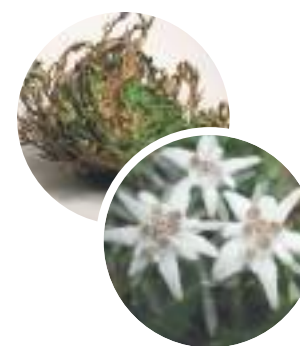

What is Callus?

Callus is a meristem which is dividing itself actively near the wound when the plant has been wounded. It contains high-concentrated biologically active substance, which is more effective for anti-inflammatory, antioxidation, anti-wrinkle and brightening, etc., than normal plant body.

Special features of Callus

- Stimulates to proliferate the skin cells
- Promotes collagen synthesis and enhances elasticity
- Reduces free radicals effectively and gives anti-aging effect

Callus in DR. NL

Rose of Jericho Callus Culture Extract

- Contains phytochemical from plant to stimulate collagen synthesis
- Improves the skin elasticity by generating antioxidant and restraining cell damage
- Helps calm the skin itching and eczema
- Improves the skin tone by inhibiting melanogenesis

Edelweiss Callus Culture Extract

- Strong and powerful antioxidant effect
- Effective for moisturizing as it contains AQP3
- Improves wrinkles by inhibiting collagenase
- Promotes the skin-lifting and elasticity by inhibiting collagenase

Other ingredients

Fuligo Wax

- Stem cell stimulation
- Collagen synthesis
- Anti-aging
- Wrinkle care

Ulvaca

- Patented ingredient
- Activation of stem cell proliferation
- Help to the skin elasticity

Madecassoside

- Skin recovery
- Anti-inflammatory effect
- Skin calming
